SUMMARY

Enthusiastic Software Developer skilled in **React.js**, **Node.js (Express)**, **Spring Boot**, **MySQL**, and **MongoDB**, seeking an internship to gain hands-on experience and build scalable web applications.

SKILLS

- In-depth knowledge of Java and its Collections Framework.
- Skilled in Backend Development using Spring Boot (Java), Tomcat Server, JSP, Spring Data JPA (ORM), Node.js (Express), and Mongoose (ODM).
- Experienced in Frontend Development with HTML, CSS, JavaScript, and React.js.
- Familiar with C/C++ and the Standard Template Library (STL).
- Proficient in Database Management using MySQL, PostgreSQL, and MongoDB for efficient data handling.
- Hands-on with tools and technologies including Git, GitHub, AWS (EC2, S3), Vite, Tailwind CSS, Bootstrap, Docker, and Maven to streamline development workflows.

EDUCATION

Indira College of Commerce and Science, Pune.

Bachelor of Computer Science - 9.27 GPA   07/2024 - Present

PROJECTS

Club Matrix - empowering school clubs ↗   09/2025 - 10/2025
Java + React + MySQL hackathon Runner-up project which contains features like sending available clubs the join request, search and categorize club, and add your own club and become leader.

Falcon - delivery in minutes ↗   10/2025 - Present
A full-stack delivery app Java Spring Boot + React + MySql for instant product delivery eg, clothing, electronics, etc. with OTP login (phone/email) and Razorpay payment integration.

BarberConnect - get live info of saloons near you. ↗   07/2025 - present
A MERN stack project to get real time information of registered saloons nearby you eg. no of customer's waiting in saloon, services provided by saloon, etc. Has a role based access in which saloon's worker can manually update no of customer's waiting.

CERTIFICATES AND ACHIEVEMENTS

Full Stack Web Devlopment - Amazon ↗
Gained skills in Spring Boot, React Js, REST APIs, build tools, deployment, and automating MySQL queries.

AWS Cloud Quest: Cloud Practitioner ↗
foundational AWS cloud skills including VPC's, EC2 instances, RDS and hands-on experience with core services.

Problem Solving Techincal Event (Coding) - Winner ↗
Awarded for solving the most Data Structures and Logical problems in 30 minutes among all participants.

Web Designing Technical Event - Consolation ↗
Awarded Consolation Prize in a web designing event for notable design skills and front-end implementation.

Leet Code - 170+ Problems Solved ↗
Solved over 170 problems on LeetCode maintaining consistency and enthusiasm.

Web Devlopment Hackathon - Runner Up ↗
made a fullstack club management website using React, Spring Boot and MySql.
